Leadership is both a Research Area and a Practical Skill encompassing the Ability of an Individual or Organization to 'lead' or guide other Individuals, Teams, or Entire Organizations. The Literature Debates Various Viewpoints (eg. US vs. European approaches). US Academic Environments define Leadership as 'a process of Social Influence in which a Person can enlist the Aid and Support of others in the accomplishment of a Common Task. Leadership seen from a European and non-academic Perspective encompasses a View of a Leader who can be moved not only by Communitarian Goals but also by the search for Personal Power....

- GUIDE STRATEGIQUE DU DIRIGEANT - Théories et Modèles, Concepts Clés, Pratiques d'Entreprises' (Strategic Guide for Leaders - Theories and Models, Key Concepts, Business Practices) by Olivier MEIER and Published by VA Editions;

This Book is a Summary of main Concepts, Theories and used Tools in the field of Strategic Management. It offers an Analysis of the Challenges for Management, Elements of Definition and Possible Extensions to promote Discussion and Debate.... Think of the many Top Executives in recent years who, sometimes after long periods of considerable success, have crashed and burned. Or Individuals you have known in less prominent positions who have suddenly found themselves out of a job.

To lead is to live dangerously. While Leadership is often depicted as an exciting and glamorous endeavor, one in which you inspire others to follow you through good times and bad, such a portrayal ignores Leadership's dark side : the inevitable attempts to take you out of the game. People in Top Positions must often pay the price for a flawed Strategy or a series of bad Decisions.

This Book might help in :

- * Offering Tactical Advice about relating to your Organization and the People in it.
- * Focusing on your Own Human Needs and Vulnerabilities.
- * It is designed to keep you from Bringing Yourself Down.

Open Society Foundations (OSF) is an International Grantmaking Network founded by Business Magnate George SOROS. The OSF has branches in 37 countries, encompassing a group of Country and Regional Foundations. Open Society Institute was created in the United States in 1993 to support the Soros foundations in Central and Eastern Europe and the former Soviet Union. In August 2010, it started using the name of Open Society Foundations (OSF) to better reflect its role as a Funder for Civil Society Groups around the World.

George SOROS as Investor, Philanthropist, Political Activist and Author is also named an Architect and a Sponsor of almost every Revolution and Coup around the World for the last 25 years and Sponsoring the US Democratic Party, Hillary Clinton and Hundreds of Politicians all over the World. He had particularly harsh words for US President-elect Donald Trump calling him 'Con Man' as also he lost nearly \$1bn as a result of the rally spurred by Trump's surprise win.

The way the Oligarch acts is wider than the geopolitical spin. For instance, we find him as the conductor of the Migrants Crisis. The fact that he works hand in hand with the Intelligence Service and some of the CIA's NGOs (National Endowment for Democracy or USAID) is an Open Secret. The Open Society's office in Washington is located just a few steps from the White House....
